

THE COMPANY

Blocksom & Co. is a diversified manufacturer of a wide variety of natural fiber products. These products are marketed throughout the continental United States and Canada to supply the demands of a variety of industries including roofing, heating and air-conditioning, furniture, U.S. government and military, construction and aquaculture industries.

Our quality air filtration products are available through well-known retailers including Ace, Home Depot, Lowe's, True Value and Wal-Mart.

Our products are manufactured at Company owned facilities located in Michigan City, Indiana. We have been manufacturing and distributing quality natural fiber products continuously since our incorporation in 1919.
